 - Aim?
 - Content?
 - Planning?

Exploitation after project period

- **Exploitation of results & impact**
 - Do you see a possibility of **transfer of one or several of your main results** (1 to 3 maximum) **to other educational sectors / areas or specific countries?** What has been initiated or achieved in this respect during the project lifetime? If this has not been initiated or achieved during the project lifetime, what is, according to your experience, needed to achieve this? Has this been reflected upon in the sustainability strategy? Has this evolved since you wrote the application?
 - **At which institutional level (mainly local, regional, national or European level) do you see a potential for scaling up the main project results?** What has been initiated or achieved in this respect during the project lifetime? If this has not been initiated or achieved during the project lifetime, what is, according to your experience, needed to achieve this? Has this been reflected upon in the sustainability strategy? Has this evolved since you wrote the application?
 - **Indicate which impulse you have initiated to transform the project outputs into outcomes and pave the way for a stronger impact?** What could already be done within the project and at which level (1-5)? You may briefly comment on concrete actions undertaken at each Level.
